

28AWG Active HDMI Cables

ACTIVE HDMI Cable, With Ethernet, Built-in Repeater, 28 AWG Construction

Why Use This Covid Cable?

Distance: Covid's 28 AWG Active HDMI Cables have built in circuitry allowing for much longer cable runs. These cables are available up to 75ft.

Flexibility: Utilizing a smaller 28AWG gauge size allows for tighter bend radius and ease of installation.

Cost: These cables use less copper making them less expensive than larger gauge cables. In addition, lighter weight equals less shipping cost.

Specifications

- Plenum Rated
- 25' & 35' Cable Supports up to: 2160p@30Hz (4K-10G)
- 50' & 75' Cable Supports up to: 1080p@60Hz, (8bit)
- Simple Plug and Play, Powered by Source
- Active Circuitry Built into Cable
- Covid's T-Grip Connectors - A More Secure Connection
- Durable, Molded Connectors
- Ships with Covid's Spear-Head Pull System
- Gold Plated Connectors

Covid Part Numbers
